EXPERIENCE

Front-End Developer, Viget Labs / November 2015 - Present

- + Build responsive and dynamic websites using the latest build tools and techniques
- + Spent several months updating U.S. News' website according to redesigned, responsive mock-ups

Interactive Graphics Developer, The Baltimore Sun / October 2013 - October 2015

- + Designed & developed news presentations, interactive graphics and standalone websites that collectively garnered more than 2 million page views
- + Worked closely with reporters and editors to build story presentations, including award-winning designs on topics such as Freddie Gray and police brutality, physical abuse of teachers and sexual assaults on military men

Fellow/Web Designer, News21 / January - August 2013

- + Designed & coded responsive site for a national project investigating the plight of post-9/11 veterans
- + News21 is an award-winning student fellowship program funded in part by the Knight Foundation

Interactive Graphics Intern, The Baltimore Sun / January - May 2013

- + Designed & built several news interactives promoted on the homepage
- + Created searchable property tax database using SQL and PHP
